Submitted to the Central Government on 31-12-1959 (w/r to Notification No. 2224 dt. 29-9-59)

NAMES OF PARTIES:

Representing employers: Shri R. G. Mahendru, Asstt. Supdt. of Collieries, Kurasia, National Coal Development Corporation, Ltd., Distt. Surguja (M.P.).

Representing Workmen: Shri R. L. Malviya, B.A., B.L., President, Chhattisgarh Colliery Workers' Federation, Chirimiri.

AWARD

On 19th March, 1959, the Executive Engineer (Excavation) Kurasia Colliery sent an order in writing to Dumper Operators, Sarvashri Amla Rai and Sarwan Singh that having found after an enquiry that they had disobeyed the Charge-man's order directing to take the dumper to the shovel, they were suspended w.e.f. 20th March, 1959, pending decision after the detailed enquiry. On 20th March, 1959 a charge sheet was served asking them why strict disciplinary action, which may amount to removal from service, may not be taken against them for this gross act of insubordination. On 30th March, the Executive Engineer informed them that they had refused to receive the charge sheet on 20th March, 1959 sent through peon book and again through the registered post on 21st March, 1959 and that the enquiry would be held on the 2nd April. Meanwhile, Shri Vidyarthi Pande, Vice-President, Kurasia Colliery Branch, Chhattisgarh Colliery Federation, wrote to the Manager Kurasia Colliery on 21st March, 1959 that these two workmen having joined the union were being harassed and that if justice was not done to them there may be a strike at any moment. The letter alleged that the workmen were suspended without any specific reason being assigned and without being given an opportunity to explain the circumstances alleged against them. Immediate cancellation of the suspension order was therefore demanded. Assistant Superintendent Kurasia Collieries replied on 21st March, 1959 that the two workmen had admitted to the Executive Engineer that they had refused to carry out the instructions, that the allegation of victimisation was baseless and that the threat of strike was an infringement of the Code of Discipline. (There was further correspondence between the Vice-President and the Assistant Superintendent). In reply to the show cause notice the workmen submitted their reply on 7th April, 1959. On the same day, before receiving the reply the Assistant Superintendent had submitted a detailed report to the Chief Mining Engineer, followed by a further report on the next day that the workmen's replies did not alter the position. The CME came to the conclusion that the workmen deserved to be dismissed. But on 22nd April, 1959, Shri R. L. Malviya, M.P., President of the Chhattisgarh Colliery Workers' Federation wrote a letter to him requesting him to keep the orders in abeyance pending further discussion. This CME agreed to by his letter dated 28th April, 1959. The Conciliation Officer also by his letter dated 26th April, 1959, referred to the Federation's letter dated 25th April, 1959 asking for the postponement of the conciliation

proceedings. Ultimately on the 16th June, 1959, the following agreement was reached between the parties:

- “(i) Without prejudice to the proceedings before arbitration as per para (iii) below the workmen concerned express regret for what they might have done and also give an undertaking for future proper conduct.
- “(ii) In the next general meeting, the Union agrees to explain to the workmen the principles for which it stands and express their open dis-approval for any indiscipline or misconduct.
- “On these conditions it is agreed that the workmen concerned will be allowed to resume duties.
- “(iii) Agreed that the matter regarding the payment of non-payment of wages of the entire suspension period will be jointly referred to arbitration under section 10-A of the Industrial Disputes Act read with Rules—7 and 8 of the Industrial Disputes (Central) Rules, 1957, for decision in reference to the whole case.”

On the same day the Assistant Superintendent wrote to the two workmen that they were allowed to resume duty. This letter recounted the circumstances of the case and warned them against future misconduct.

There was further correspondence on this letter, but for the present purpose it is only relevant to note that in pursuance of clause (iii) of the agreement dated the 16th June, 1959 the parties nominated me as the arbitrator. The arbitration agreement has been published in the Ministry of Labour and Employment Notification No. 2224 dated the 29th September, 1959. In this notification the specific matter in dispute is described as follows:—

“The question of payment or non-payment of wages for the suspension period of Saryashri Sarvan Singh and Amla two workmen of Excavating Section of Kurasia Colliery, who were suspended for alleged misconduct.”

2. After calling for the statements of the parties, on the 29th December, 1959 I heard Shri Malviya and Shri Mahendru. Shri Vidyarthi Pande and Shri Sarwan Singh on behalf of the workmen and Shri T. K. Shriram on behalf of the management were also present.

3. Shri Malviya argued that clause 1(c) of the standing orders said that the “Manager” had the meaning as in the Mines Act, that clause 35 made the Manager responsible for compliance of the Standing Orders, that under the Mines Act the manager was solely and completely responsible for the management of the mine and that, therefore, the Executive Engineer, or for that matter the Assistant Superintendent through an officer superior to the Manager had no authority to suspend the workmen. Shri Mahendru replied that everything that the Manager was authorised to do was not within the compass of the Mines Act, that clause 35 of the Standing Orders itself said that the manager would not be responsible if overruled by a superior officer i.e. it contemplated the exercise of authority by the Manager's superiors also and that the employer-employee relations were governed by laws other than the Mines Act. He added that the NCDC (National Coal Development Corporation) had by its internal orders directed that the Executive Engineer shall be in the executive charge of the excavating section. He selected the men and took disciplinary action against them. The workmen knew that he was the controlling officer. Shri Mahendru added that the Executive Engineer endorsed copies of the suspension order and the charge sheet to him, he approved of them and he himself reported to the CME that the workmen deserved dismissal.

4. On the facts of the case Shri Malviya said that the Union-management relations were greatly improved since then and that he did not very much want to agitate unpleasant facts. Shri Malviya pleaded that assuming the workmen had refused to comply with the orders they could have been suspended for one day. The action taken by the management was, Shri Malviya pleaded, disproportionate to the alleged misconduct. I myself asked Shri Sarwan Singh, one of the two workmen, who was present whether he and Shri Amla Rai refused to comply with the chageman's orders. He explained that three or four dumpers worked with each of the three shovels operating on 19th March 1959. Their

shift began at 4 A.M. The shovel with which they worked had gone out of order overnight. They were sitting idle till about 6 A.M. when the chargeman asked two dumper operators working with another shovel to go home and Sarvashri Sarwan Singh and Amla Rai were asked to work in their place. Some time before this they had complained to the chargeman that the water lorry driver was not working properly. When the chargeman took no action they complained to the Executive Engineer when the latter visited the work spot and asked why the dumpers were working slowly. They explained that there was too much dust because the water lorry driver did not work properly and though this was reported to the chargeman he took no action. Shri Sarwan Singh implied that the chargeman being annoyed with him and Shri Amla Rai asked them to work although the shovel to which they were attached was out of order. Shri Mahendru said that more than three or four dumpers some times worked with one shovel and that Sarvashri Sarwan Singh and Amla Rai were asked to work in addition and not in lieu of the two other men.

5. The third point to be considered was whether in view of clause 26 of the Extending Orders the two workmen could remain suspended without pay for more than a month. Both of them were suspended on 21st March 1959 and reinstated on 16th June 1959. On 21st April 1959 the Assistant Superintendent thinking that they could not remain suspended without pay for more than a month started paying them their wages. Shri Amla Rai took leave without pay from 29th April 1959 to 26 May 1959. On receiving CME's directions payment of wages during suspension was stopped by the Assistant Superintendent from 13th May 1959. Thus during the suspension period of 5 days less than three months Shri Amla Rai was paid wages for 8 days from the 21st to the 28th April and Shri Sarwan Singh from the 21st April to 13th May. Shri Mahendru said that within one month from the date of suspension the management had made up its mind to dismiss the workmen and that if there was any delay it was because of the union and particularly because Shri Malviya wanted the CME to keep the orders in abeyance. The misconduct was proved. The reinstatement of the workmen was itself a concession and if they remained suspended for more than a month it was because the management, though having taken a decision on merits that the workmen deserved dismissal, agreed to reduce the penalty with a view to promoting harmonious industrial relations.

6. I shall now deal with these three points in the light of the standing orders and the admitted facts of the case. Before doing so I might dispose of the point raised on behalf of the workmen that during the enquiry they were not allowed to be represented by the union. As to whether they had a right to be so represented Shri Malviya referred to the standing order 27 which required the CME if the circumstances so warranted to institute independent enquiries with the cooperation of the labour union. That stage never arrived in this case. For, the CME accepted the enquiry made by the Executive Engineer.

7. I am quoting below the relevant extracts from the standing orders:—

"26. An employee may be suspended, fined or dismissed without notice or any compensation in lieu of notice if he is found guilty of misconduct, provided that suspension without pay, whether as a punishment, or pending an enquiry, shall not exceed one month. The following shall denote misconduct.

"27. No orders of punishment by way of suspension, dismissal or fine shall be made unless the employee concerned is informed in writing of the alleged misconduct and given an opportunity to explain the circumstances alleged against him. The approval of the Chief Mining Engineer, Railway Board is required in case of dismissal and when circumstances appear to warrant it that Officer shall institute separate independent enquiries with the cooperation of the labour union before dealing with the charges against an employee. During the period of enquiries being made on account of alleged misconduct the employee concerned shall be suspended.

"28. If on enquiry the order is confirmed or modified, the employee shall be deemed to be absent from duty for the period of suspension and shall not be entitled to any remuneration for such period, if, however, the order is rescinded, the employee shall be deemed to be on duty during the full period of suspension and shall be entitled to same wages as he would have received if he had not been suspended.

Provided persons working on time-rated basis from a date prior to 15th November 1947 shall in the event of suspension pending enquiry be paid subsistence allowance in accordance with such Rules as were

applicable to them in this respect before these orders came into force and such amendments in the said Rules as may be ordered by the Central Government from time to time.....

"35. The Manager of the Colliery shall be held responsible for the proper enforcement of these standing orders provided that a Manager is overruled by his superior he shall not be deemed to be responsible for the decision so taken....."

8. The contention that the Manager alone is competent to suspend or dismiss a worker is not tenable. Under the Mines Act the manager has certain statutory responsibilities which cannot be delegated and for which he is personally liable. These do not include the authority to appoint or dismiss a workman. The Standing Orders require the CME's approval for dismissal which is obviously provided to give protection to the workman against harsh or arbitrary termination of service. There is no dispute that CME's approval is not required for the appointment of a worker. Perhaps a clear definition of the authority to appoint, punish or dismiss a workman would have been desirable. But for this reason I am unable to conclude that the Manager alone is competent to suspend a workman. Even in respect of Government servants the law requires that the authority to dismiss an employee shall not be subordinate to the appointing authority. It does not prohibit a subordinate authority from suspending an employee. The construction of the standing order 26 is in the passive voice. It does not show who is or is not the competent authority to suspend a workman. In the circumstances the delegation as made and understood by the NCDC should be accepted.

9. About the facts of the case, in their replies the workmen alleged that the enquiry was unfair and that the intention was to victimize. But what Shri Sarwan Singh himself said during the proceedings, accepting his version in its entirety meant that during his shift hours one shovel being out of order, the privilege of remaining idle was not impartially allocated by the chargeman. This alleged partiality is not of a nature or magnitude that could justify disobedience by way of refusal to work and the subsequent course of conduct adopted by or on behalf of the workmen.

10. Happily, however, after the Vice-President of the union had initially hinted at the possibility of a strike better counsels prevailed, amity was restored between the management and the union and by the agreement of the 16th June, both sides made common cause for discipline and mutual respect.

11. The only question, therefore, is whether suspension without pay for more than a month is lawful. Obviously the Assistant Superintendent thought that he could not keep the workmen under suspension without pay for more than a month. CME's advice to the contrary must have been based on the very understandable consideration that if the union interceded on behalf of the workmen and asked the decision of dismissal to be deferred, it could not ask for payment of wages during the period of suspension so extended. The Assistant Superintendent also pointed out that under the proviso to clause 28 of the Standing Orders subsistence allowance was required to be paid only to workmen recruited before 15th November 1957.

12. I feel however that clause 28 and its proviso must be read with the categorical direction in clause 26. It is not as if the workmen were dismissed and then reinstated. The management were good enough to agree to hold over their decision to dismiss the workmen and the agreement on the 16th June, 1959, treats the intervening period as suspension. It would be a natural extension of this goodwill in consonance with the accommodation shown by the management and what is more in accord with the mandatory nature of the wording of clause 28 that suspension without pay should not exceed one month particularly when the extended period was a voluntary act of the management though no doubt a graceful act at the request of the union.

13. I therefore award that in the period between 21st March 1959 and 15th June 1959, both days inclusive, the two workmen shall be paid wages excluding (a) one month and the days for which during this period the respective workman has already been paid, and (b) in the case of Shri Amla Rai the days on which during this period he had taken leave without pay..
